

SUPERCONNECT STEREO REVO.

if supported by provider and software

The REVO icon reloaded in stereo: the SuperConnect Stereo is the next evolution of the expression of REVO's design and engineering philosophy, and the current state-of-the-art of our product design and development. REVO's core dogma of functionalism meets craft and technology culminates in a next-generation audio device that beats at the heart of your musical ecosystem, providing whatever soundtrack you need. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming services.

The SuperConnect Stereo is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio – providing access to over 36.000 stations from around the world. But the music doesn't stop there – its ability to communicate with external devices and services is unrivalled. Wireless lan and Bluetooth technology enable wireless music playback from smartphone or tablet in high quality and streaming services like Spotify, amazon music or Deezer provide up to 100 million songs in digital quality and can be played directly with the REVO SuperConnect Stereo.

The SuperConnect Stereo is crafted using the finest materials and components, its all-wood cabinet with anodised aluminium and mild steel facia and backplate complement its advanced electronics beautifully. A detailed graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and driver technology deliver 30W of clear digital audio with clarity and deep, rich bass.
