

# NOXON iRadio 360

Internet radio with impressive stereo sound

- Internet radio without a computer
- Over 14,000 radio stations free of charge from around the world, presorted by country and genre
- Listen to recorded programs (podcasts) and audio books whenever you want
- Play music from computer hard drives and Network Attached Storage units
- High-quality matt-black housing
- Large 2-way speakers (2 x 10 cm) with impressive sound
- Including an additional NOXON iRadio 300 speaker for full stereo sound
- User-assignable preset buttons
- Headphone and analogue audio output

With the NOXON iRadio 360 Internet radio, you receive online music and information from the whole world. Listen to something other than the monotonous programming of your local radio stations for a change. With over 14,000 stations worldwide, the NOXON iRadio 360 offers endless international variety. For example, you can listen to rock music from the USA or pop music from Africa, the news from Tokyo or comedy from Australia, the charts from Germany or podcasts from around the world. To make picking a station easy, everything is sorted by country and genre. Give it a try, there's so much to discover!

And it's really easy. First, the configuration wizard helps you connect to the network, whether it is wired (LAN) or wireless (WLAN). If your WLAN has security against unauthorised access, the key is entered conveniently during the installation. This gives you secure access to over 14,000 radio stations worldwide. By pressing the station keys, you can save your favourite stations directly and select them again quickly at any time. Want to play your music collection on your computer? No problem – if the computer is logged into the same network, the media library is shown on the generously sized display. This way, with the NOXON iRadio 360, listening to your favourite tunes is easy as 1-2-3, no matter where your computer is. The two 2-way speakers provide for good stereo sound with clear treble and punchy bass levels. In addition, this stylish device looks good everywhere, whether in the kitchen, at a grill party in the yard or in your living room.

The NOXON iRadio 360 offers the latest technology, but operating it is as easy as child's play. The rotary knob with push function takes you through the different settings and stations. The ergonomic back button brings you to previous settings. In a matter of seconds you can go from Germany to Brazil, or wherever your musical journey takes you.

Loud or soft? For a big party with music from around the world, the NOXON iRadio 360 can also be connected to any Hi-Fi system. But if a quieter environment is what you need, simply connect headphones and enjoy undisturbed music, podcasts, audio books – whatever you want.

# NOXONiRadio360
