Phone function

- Phone mode featuring up to 2 hours of talking time

Micro-SD Kartenleser

- MicroSD card reader for MP3 playback mode

IMPERIAL® BAS 1

The IMPERIAL BAS 1 is an extremely compact Bluetooth loudspeaker. Thanks to Bluetooth 3.0, the BAS 1 may be easily connected to other Bluetooth-capable devices (e.g. smart phones). Once connected, the BAS 1 can play back all music files stored on the connected device as well as streamed audio files. Volume and title selection can be controlled with the connected device (e.g. MP3 player mode on smart phone). While using the internal micro SD card reader, the IMPERIAL BAS 1 can be used as stand alone MP3 player. The internal mike allows to use the small Bluetooth speaker's phone mode which supports several functions. The BAS 1 may be powered by an external device (over mini USB - USB charging cable) as well as over the internal rechargeable battery. It is available in six different colors (red, yellow, blue, black, white or silver).
